PRODUCT | UX/UI Designer

with strong technical, motion, and graphic skills

Metinvest · 5y · 2021-26
UX/UI Designer

Full-time

Designing corporate web pages and apps: UX research, prototyping, feedback-based iterations.
Working with the company's design system (atomic design).
Collaborating with development and business teams.
Creating promo materials.

Achievement #1

-92.5%

Process Time

Initiated and developed an internal web tool, from business analysis to implementation, reducing request processing time from 80 to 6 minutes.

Achievement #2

10 000

Audience

Designed enterprise applications, including an AI-assisted learning platform intended for 10,000 employees within a 37,000-person organization.

Achievement #3

5 years

Product Design

Owned the corporate website's product design and evolution for 5 years, including legacy UI migration. Recognized as a benchmark across the holding group.

SA Consulting · ~2y · 01/2025-Now
UX/UI, Brand Designer

Part-time

Designing UX/UI solutions for the company and vendors (Atlant AI).
Visual research, moodboarding, art direction, templates.
Creating presentations, documents, branded materials, etc.

0→100%

Brand System

Built the studio's visual identity from scratch, creating a cohesive brand system across documents, presentations, social media, motion graphics, and web UI/UX.

All-in-One

Document System

Developed a reusable contract design system adaptable to different agreement types and client brands, receiving highly positive feedback from multiple clients.

KPMG Ukraine · 4mo · 01-04/2026
Motion Designer

Full-time

Supporting the UX/UI team with micro-animations, interactions, etc. Designing promos, intros, event screens, and marketing assets.

SkyUp Airlines · 9mo · 04/2026-Now
Web Designer

Full-time

Building and rolling out an internal design system (Web, Email, Motion), documenting design decisions, developing internal brand guidelines. Designing videos, emails, and print materials.

Mindset

I see myself as someone driven by growth, hard work, broader perspective, professional evolution and process optimization.

I enjoy learning unfamiliar things. Give me any tool I have never used — say, Assembly — and I will figure out how it works and explain it to others.

I value honest collaboration, constructive criticism, results worth showing, thoughtful design, technical craftsmanship, and work where professional expertise makes a real difference.

Bonus | I code, work with AI tools, and automate workflows
